## ENGINEERING SUPPLEMENT

ES-172

June 2007

### ARRANGEMENT 4 TUBULAR ACOUSTAFOIL® FANS

Sizes 12 through 36 Tubular AcostaFoil Fans are available in Arrangement 4 for direct drive applications. Arrangement 4 wheels can be narrowed to meet the required performance at standard AC motor speeds. Minimum blade-width requirements limit Size 12 fans to 47% of full-width, Size 15 to 38% and Sizes 18 through 36 to 30% of full-width.

The direct-drive performance curves shown in this catalog sheet will guide the designer to potential fan sizes and models. It is recommended that final selection be made using New York Blower's Electronic Catalog software and that a New York Blower sales representative be consulted for assistance in optimizing the selection.
